

CENTMARDE CAMPADO

Andaya St., p-8, Port-Poyohon, Butuan City
Contact me at: 09633490312 or centmarde.campado@gmail.com

PROFESSIONAL/HIGHLIGHTS

- 3 years experience in Mobile Development (Flutter, Capacitor & React Native)
 - 3 years experience in Web Development (Vue3,Laravel,ReactJs,Django etc..)
 - 1 year experience in Game Development (Unity,JavaScript & Godot)
-

WORK EXPERIENCE

- | | |
|---|-----------------------------|
| Project Manager (Freelance) | Jan 2022 - Present |
| • Managed cross-functional teams of 1-3 members for client-facing project | |
| Lead Developer (CSU game developers) | Jan 2022 - Present |
| • Collaborated with cross-functional developers to design and implement game features | |
| Jr. Developer (Tidal Swing Freelance) | Feb 2025 - June 2025 |
| • Collaborated with senior developers to learn best practices and coding standards | |
-

EDUCATION

- | | |
|--|---------------------------|
| Bachelor of Science in Information Technology | Aug 2021 - Present |
| • Caraga State University | |
-

TRAINING AND SEMINARS ATTENDED

- **PSITE Caraga:** 11th ICT Student Congress and Skills Competition hosted by the Philippine Society of Information Technology Educators (PSITE), Caraga region.
- **Level up DOST Esports game development:** Three-day program focused on game development.
- Caraga Startup Pitch Fest 2025: Innovating for Regional Development
- **Developing Virtual Reality Games using the Ateneo Virtual Reality Escape (AVRE) Framework:** completing the 8-hour training session on Developong Virtual Reality Games using the Ateneo Virtual Reality Escape (AVRE) Framework, I gained hands-on experience in creating immersive virtual reality experiences. The training covered the fundamentals of VR game development, including environment design, interaction mechanics, and user experience optimization. I learned to utilize the AVRE framework effectively to build engaging VR applications.

CERTIFICATES

- **Basic Level of Software Engineering:** earned in July 3, 2024 by Department of Information and Communications Technology.
- **Intermediate Level of Software Engineering:** earned in May 7, 2024 by Department of Information and Communications Technology.
- **Advanced Level of Software Engineering:** earned in April 17, 2024 by Department of Information and Communications Technology.
- **Basic Level of Cloud Computing:** earned in March 16, 2024 by Department of Information and Communications Technology.
- **Canva for Graphic Design:** earned in April 2, 2024 by Department of Information and Communications Technology.
- **Principles of Design:** earned in July 3, 2024 by Department of Information and Communications Technology.
- **Basic Level of Digital Transformation:** earned in July 30, 2024 by Department of Information and Communications Technology.
- **Fundamentals of Marketing:** earned in July 30, 2024 by Department of Information and Communications Technology.
- **Digital Innovation in Government:** earned in July 13, 2024 by Department of Information and Communications Technology.
- **Basic Building Blocks of the User Interface:** earned in May 27, 2024 by Department of Information and Communications Technology.
- **Functional Composition:** earned in April 6, 2024 by Department of Information and Communications Technology.
- **Developing a Static Website:** earned in April 2, 2024 by Department of Information and Communications Technology.
- **Basic Javascript for Web Development:** earned in March 25, 2024 by Department of Information and Communications Technology.
- **Using HTML and CSS to Design a Website:** earned in March 15, 2024 by Department of Information and Communications Technology.
- **Principles of Web Development and Introduction to HTML:** earned in March 15, 2024 by Department of Information and Communications Technology.
- **Introduction to Android Application Development:** earned in March 11, 2024 by Department of Information and Communications Technology.
- **Introduction to HTML course:** earned in January 22, 2024 by SoloLearn.
- **Introduction to CSS course:** earned in January 24, 2024 by SoloLearn.
- **Introduction to JavaScript course:** earned in March 18, 2024 by SoloLearn.
- **Introduction to Java course:** earned in April 21, 2024 by SoloLearn.
- **Java Intermediate course:** earned in April 21, 2024 by SoloLearn.
- **Online Art Competition:** earned in December 10, 2020 by National Human Rights Consciousness.
- **Avre Framework Training:** earned in June 2025 by Ateneo Virtual Reality Escape.

CLUB/ORGANIZATION AFFILIATIONS

Society of Information Technology Students

Aug 2021 - Present

- Caraga State University

OTHER SKILLS

- Knowledge in Graphic design and Digital art using professional ICT tools like Photoshop Canva, Figma and ClipStudio.
 - Knowledge in Git (Distributed Version Control System).
 - Knowledge in microsoft 360 office.
-

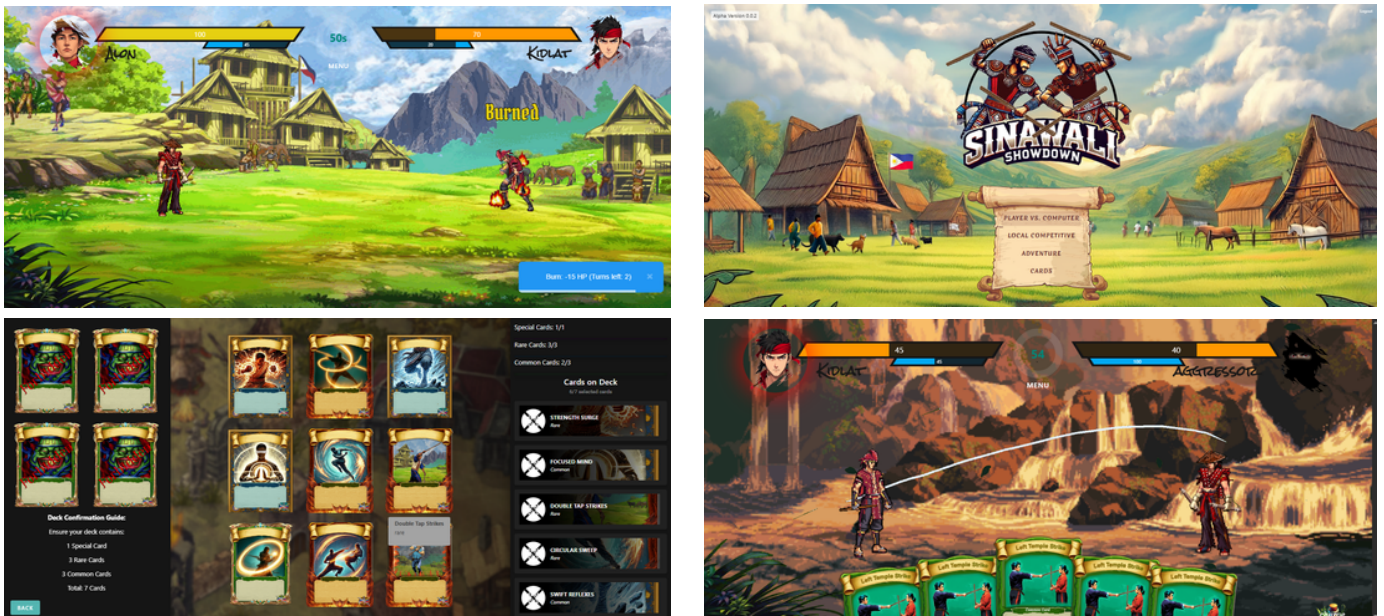

SOME OF MY PROJECTS

- **Snooze Tutor:** Assign as a main developer for both the front and back end. A school project. It's all about the Q&A mobile application.

Repository: <https://github.com/TheStrongestAlgorithm/Snooze-tutor-full-project.git>

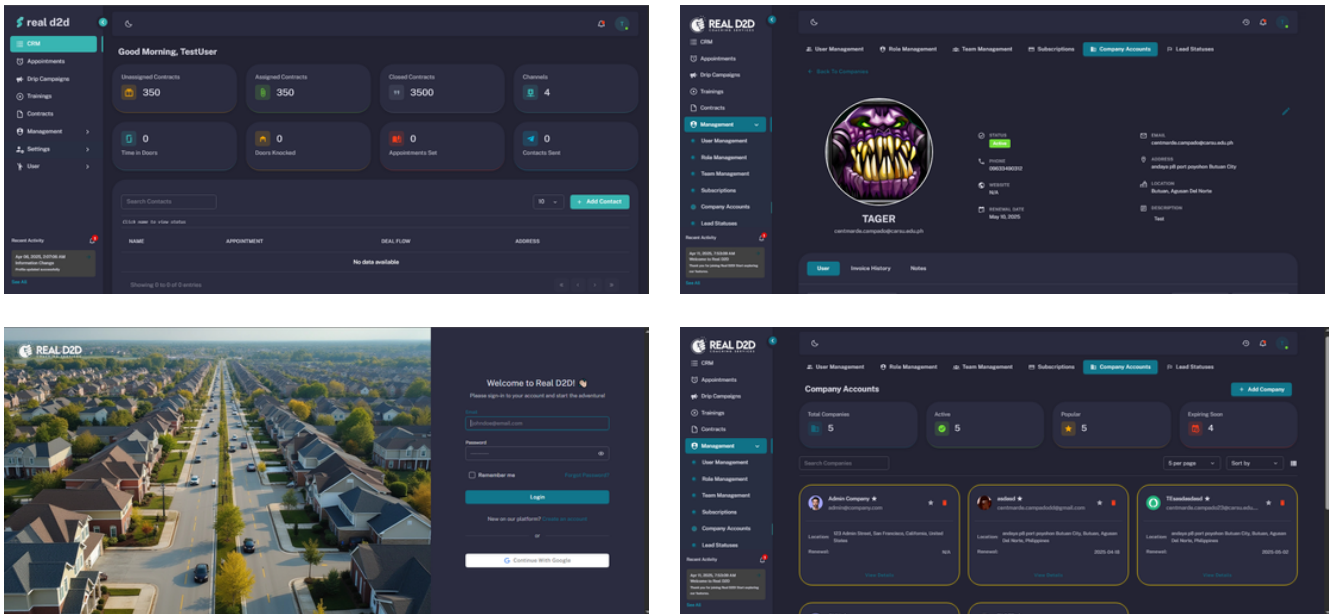

- **Sinawali Showdown:** Assign as a main developer for both the front and back end. A national competition entry for the DOST game dev challenge. with a podium finish.

Repository: https://github.com/centmarde/Sinawali_Showdown-version-Alpha-0.0.1.git

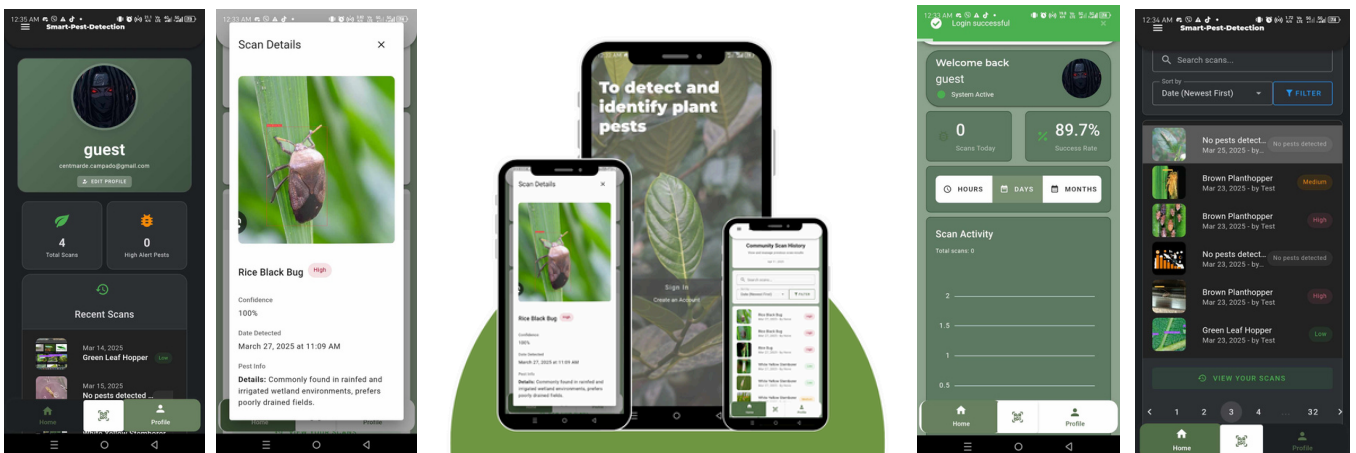

PROJECTS CONT.

- **RealD2D:** Assign as a junior developer for both the front and back end. a System as a Software ordered by TidalSwing.

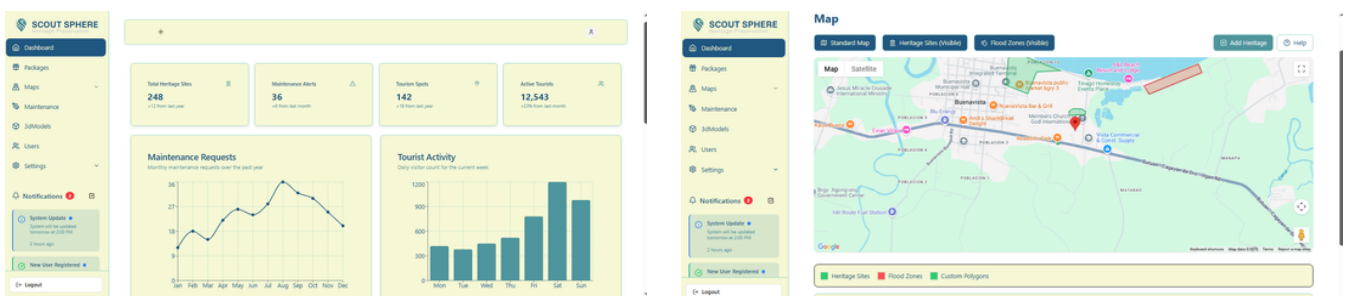

Repository: under Non-Disclosure Agreement.

- **Smart-Pest-Detection:** A mobile application for plant pest identification using machine learning.

Repository: <https://github.com/centmarde/Smart-pest-detection.git>

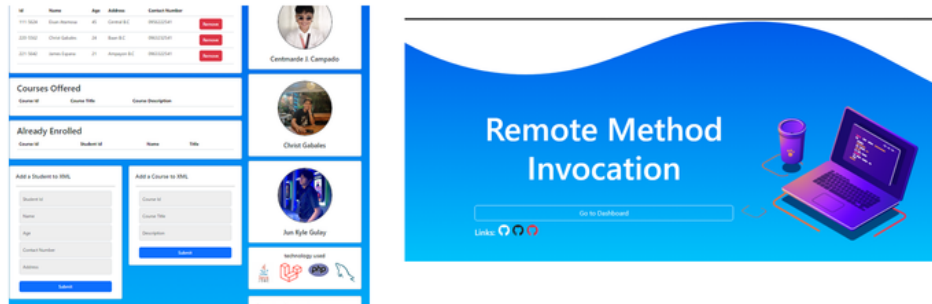

- **ScoutSphere:** an entry for pitching competition, a software that solves a local problem from Libertad, B.C., for preserving the historical sights, etc.

Repository: <https://github.com/centmarde/Scout-Sphere.git>

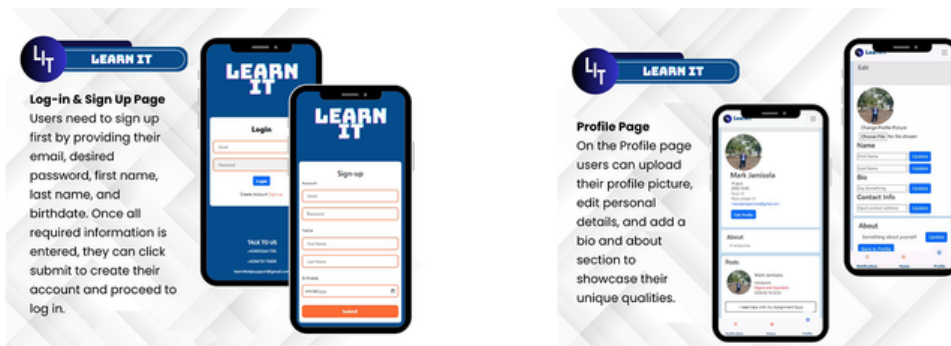

PROJECTS CONT.

- **RMI Enrollment System:** This project is all about how to integrate different machines/tech. Examples include shared databases, Parsing, and invocation using REST API and CRUD functionalities.

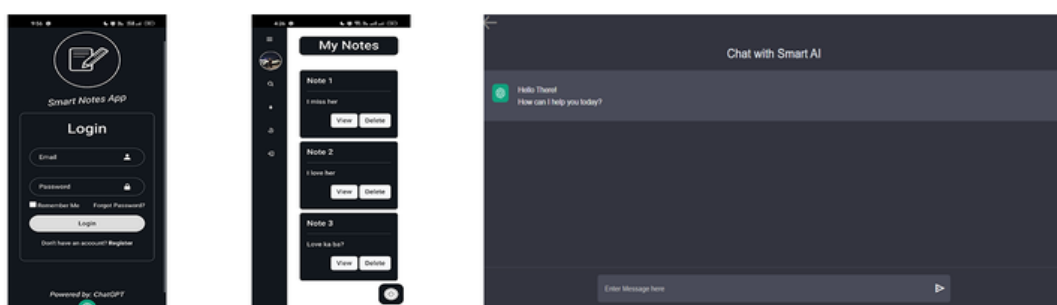

Repository: <https://github.com/TheStrongestAlgorithm/RemoteMethodInvocation-Laravel.git>

- **LearnIt:** Assign as a Contributor for back end. A school project. It's all about the Q&A mobile application.

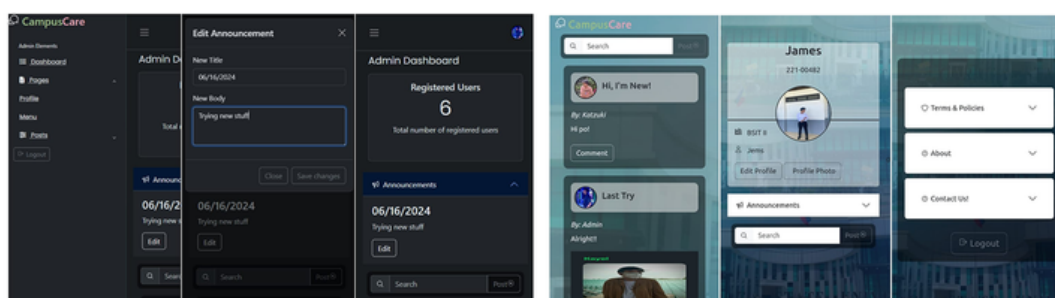

Repository: <https://github.com/TheStrongestAlgorithm/LearnIt.git>

- **NoteAi a.k.a Smart Notes:** Assign as a Contributor for both the front and back end. A school project. It's all Note taking application with a AI ChatBot.

Repository: <https://github.com/TheStrongestAlgorithm/Note-Ai-version-2.git>

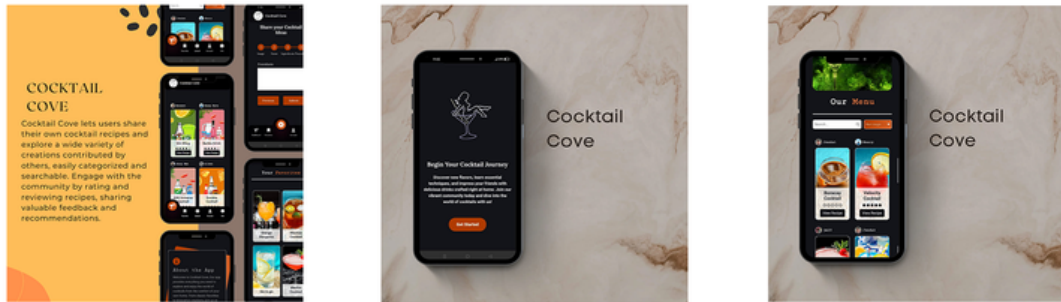

- **CampusCare:** Assign as a Contributor for back end. A school project. It's all about Mobile App Freedom wall.

Repository: <https://github.com/TheStrongestAlgorithm/campusCare.git>

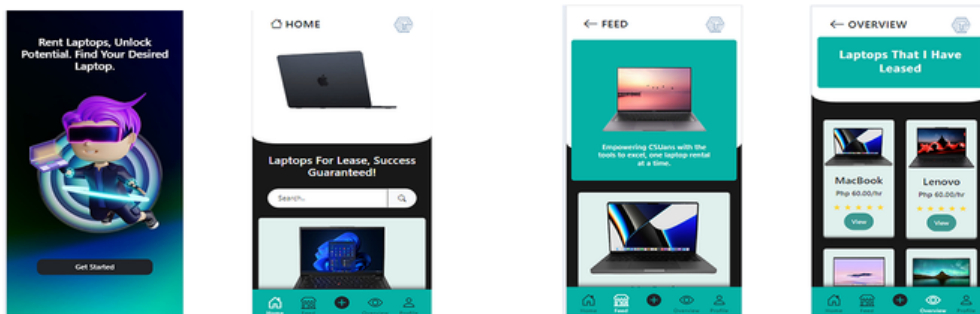

PROJECTS CONT.

- **CocktailCove:** Assign as a Contributor for back end. A school project. It's all about the Cocktail mixed menu/ingredients mobile app.

Repository:<https://github.com/TheStrongestAlgorithm/CocktailCove.git>

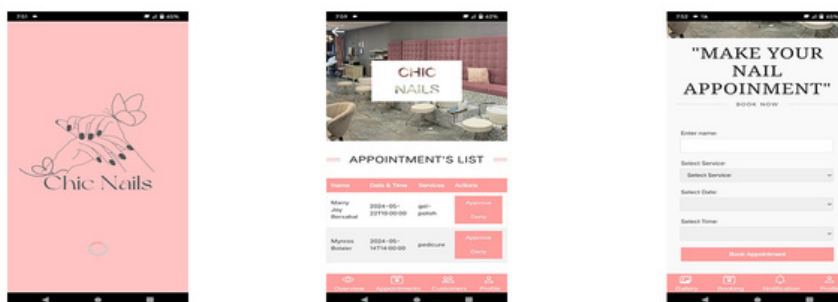

- **Rentech:** Assign a Contributor for the backend. A school project. It's all about buying laptops through a mobile app.

Repository:<https://github.com/TheStrongestAlgorithm/RenTech.git>

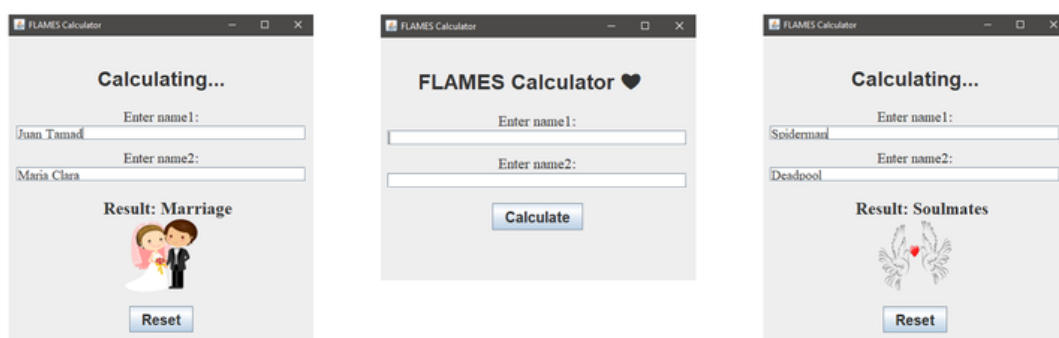

Repository version 2: <https://github.com/TheStrongestAlgorithm/rentechv2.git>

- **Chic-Nails:** Assign as a Contributor for User authentication, role-base and made some minor fixes. A school project. It's all about the nail service reservation/scheduling.

Repository:<https://github.com/TheStrongestAlgorithm/Chic-Nails.git>

- **Flames Desktop App:** Assign as a main developer. A school project. It's all about the traditional game FLAMES, in which you enter two names and determine your compatibility.

Repository:<https://github.com/TheStrongestAlgorithm/Flames-queue-Java-algorithm.git>

PROJECTS CONT.

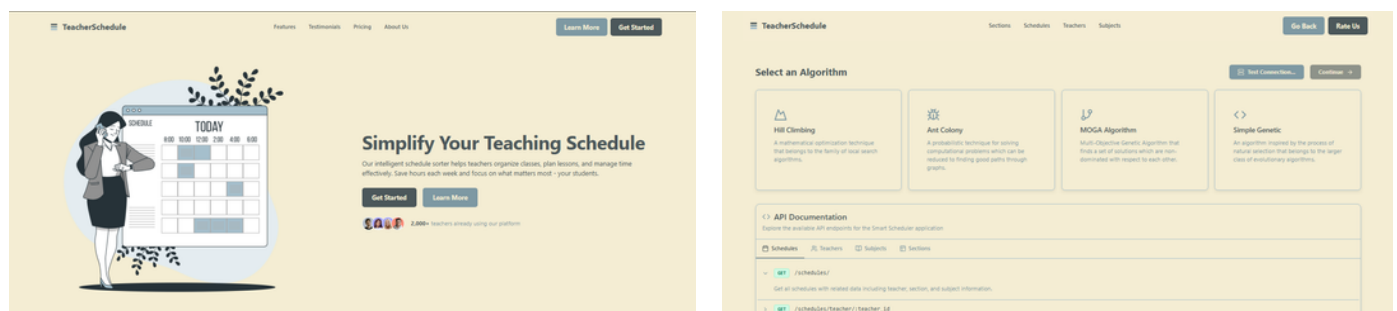

- **PSGC-Integration:** Assign as a main developer. A school project. its a register form utilizing API.

The PSGC-Integration web application consists of three main pages:

- Login Page:** Features a 'Login' form with fields for Email and Password, a 'Login' button, and a 'Create Account / Sign-up' link. Below the form is a 'TALK TO US' section with contact information.
- Sign-up Page:** Features a 'Sign-up' form with fields for Personal Details (First Name, Middle Name, Last Name, Extension Name, User Name, Gender), Password, Password Confirmation, and Address. It includes a 'Create' button and a 'Log in' link.
- User Profile Page:** Displays user information including First Name, Middle Name, Last Name, Extension Name, User Name, Gender, Password, Birthdate, Region, Province, City, and Barangay. It includes a 'Logout' button.

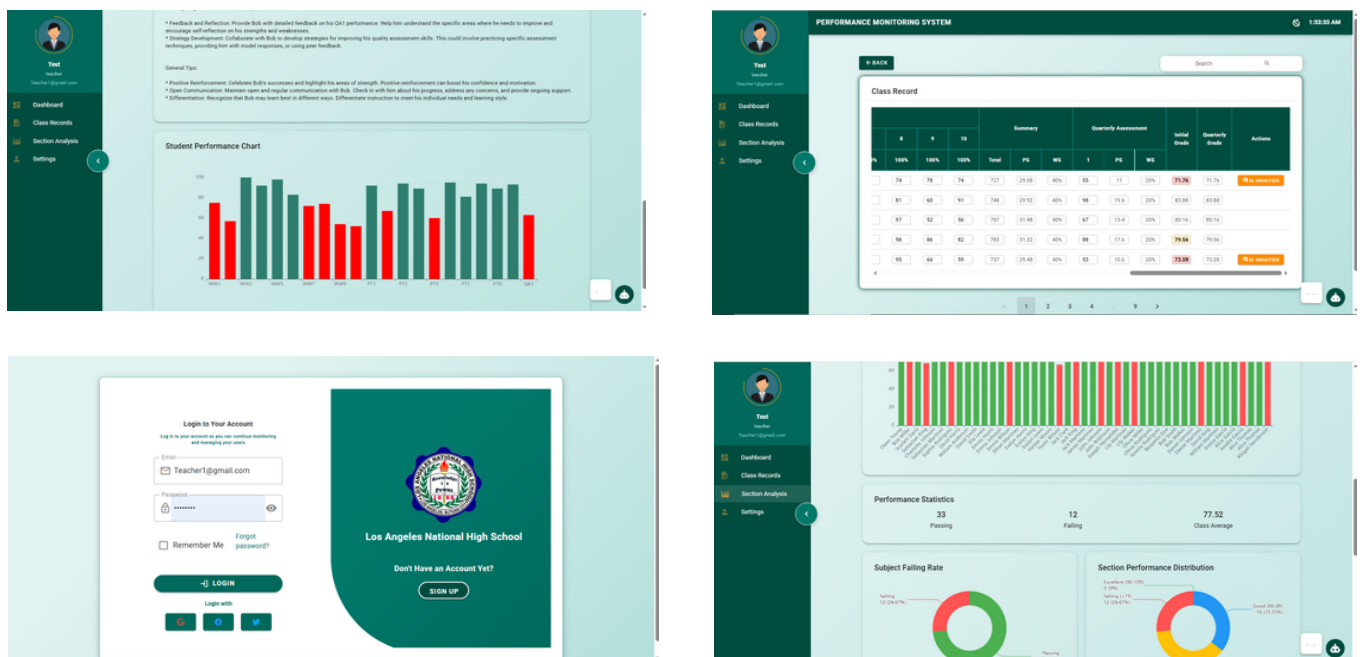

Repository: <https://github.com/TheStrongestAlgorithm/PSGC-Integration.git>

- **Smart Scheduler:** A thesis commission, Comparative Research Smart Scheduler app.

Repository: <https://github.com/centmarde/SmartScheduler.git>

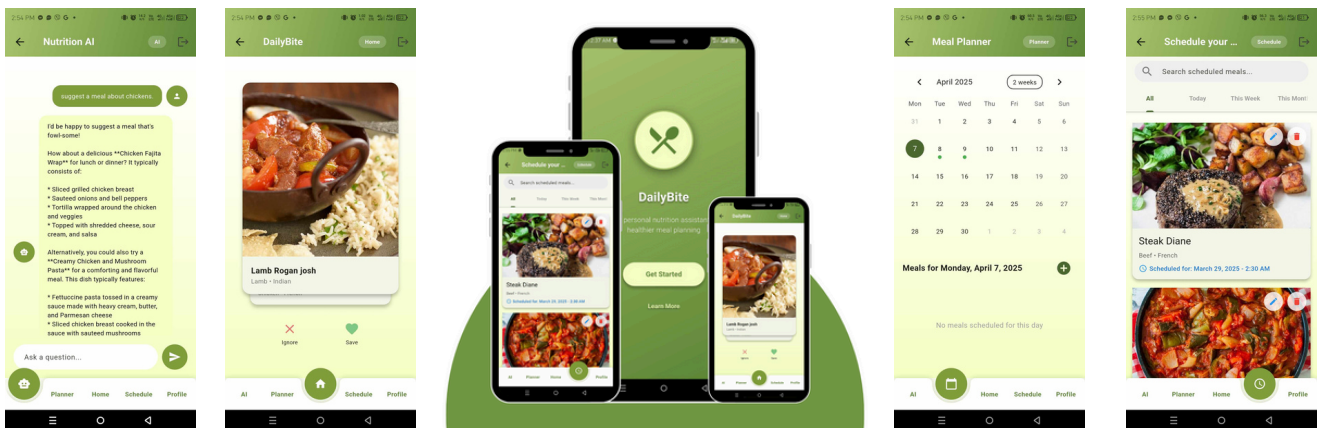

- **Performance Monitoring System:** A thesis commission, Development of a Web-Based Student Performance Monitoring System for Los Angeles National High School

Repository: <https://github.com/centmarde/Performance-Monitoring-System.git>

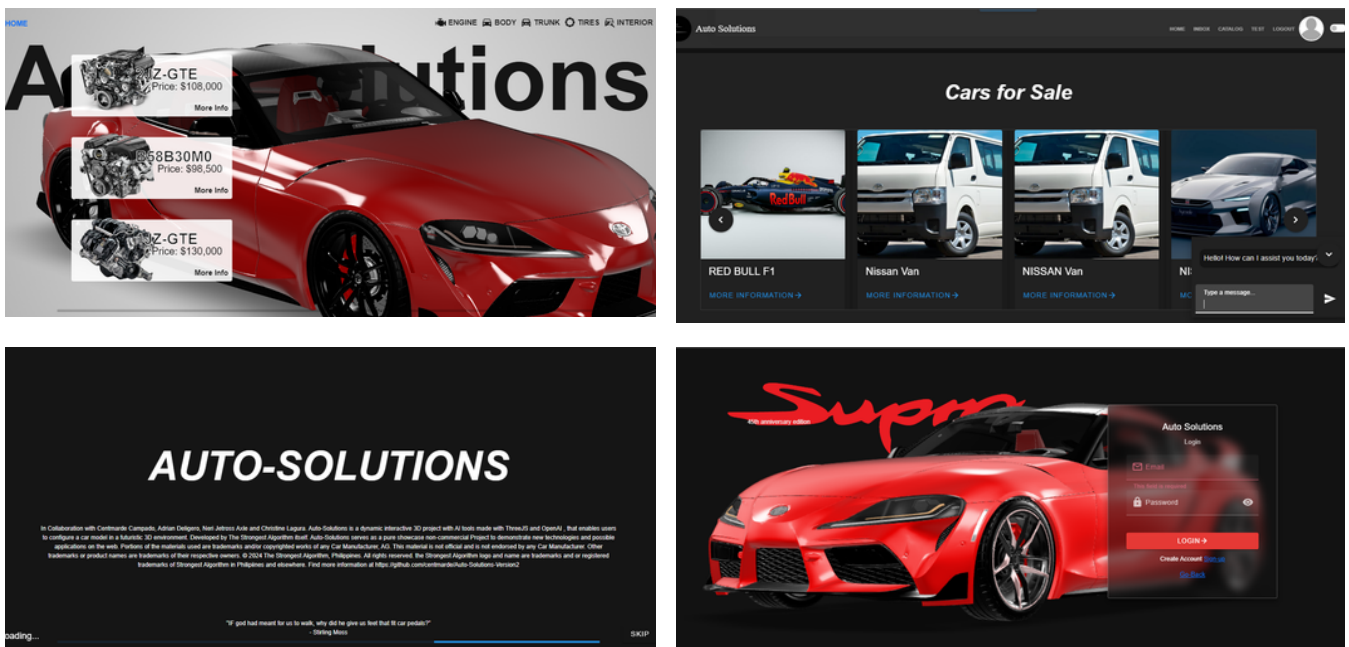

PROJECTS CONT.

- **DailyBite/NutriPlan:** Assign as a main developer. a scheduler for daily meal plans. with AI integration.

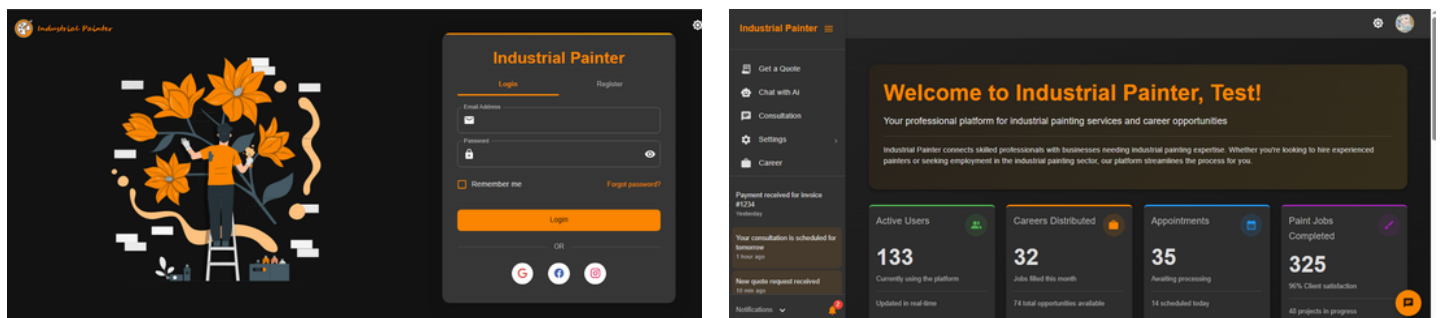

Repository: <https://github.com/centmarde/NutriPlan.git>

- **AutoSolutions:** Assign as a main developer. E-Commerce web system for cars 1 stop 1 go!

Repository: <https://github.com/centmarde/Auto-Solutions-Version2.git>

- **Industrial Painter:** Assign as a main developer, Frontend Revision. website for paint services.

Repository: <https://github.com/centmarde/Industrial-Painter-HCI-revise.git>
